Ok thanks! Putting us on call is a huge help!
One last thing...I have an [REDACTED] that I need to pick up, so if you do call us I would need to be out of the court no later than 2:30 to make it home in time to pick him up.

Thanks,

I am pretty sure that this case is going forward on the 3rd. [REDACTED] is facing a mandatory sentence if convicted, so I know that his attorney has to try the case. Whether or not the court will be able to accommodate us given docket congestion is another story. I will touch base with our clerk today and try to get you a more definitive answer.

I have no problem having you on call. You and Peter will probably be my last witnesses, so if I call you when we start empanelling, I am sure you will get here in time. Let me know if I can do anything else to make this easier on you (I can't imagine how difficult all this trial scheduling has been).

Thanks,
Gina

Hi Gina,

Could you please let me know if this case is still going forward and if you will definitely need Peter and I on Nov 3rd? Would it be possible for us to be "on call"? I am also scheduled to be in Lawrence District that day.

Thanks,

Kate Corbett

Hi Gina,
I am mailing the disco packet today...also I have attached a list of standard questions that you could use if you want.
Thanks,
Kate

Hi Kate—thanks for reaching out to me. Sorry the summons was so late. D/C submitted a late breakdown request, which wasn't addressed till quite recently. Anyway, the lab # is [REDACTED] If you wouldn't mind sending me your disco packet, that would be great. You can fax it if it's easier. My fax # is (781) 897-6776. Let me know if you need directions out here or anything, although it's a pretty straight shot from Boston.

Also, I know some chemist have standard questions that they like to be asked, so if you have/want me to use yours, I am very flexible.

Thanks,
Gina

Hi Gina,

I received a summons for Comm vs. [REDACTED] the other day. Could you please give me the lab# associated with this case? Also, would you like me to send you out a discovery packet with my notes, etc..?
Thanks,
